Paper size = A4 (210mm x 297mm)

Double-page spread advertisement	420mm x 297mm*
Full page advertisement	210mm x 297mm*
Half-page horizontal advertisement	186mm x 127mm

Quarter-page advertisement	87mm x 127mm

Please supply magazine advertisement artwork as a PDF.

PDF guidelines for magazine artwork

- **Process CMYK, not RGB or pantones:** It is a common error to send artwork with colours set to RGB, the format used for websites, or for it to contain pantone colours. Please convert your artwork to Process CMYK before saving the PDF.
- **High-resolution images:** All images – photographs and logos – should be 300dpi or higher. Please check that your artwork does not contain low-resolution logos or images.
- **Keep web addresses clickable:** For website and email addresses in your advertisement to be clickable in our digital edition, please select the option to keep them live when you save your PDF.
- **Keep elements away from trim edges in full-page ads:** Please keep a 5mm clear border between text / graphic elements and page edges unless you intend graphics to bleed off the page, in which case please add a 6mm bleed area to page dimensions.
- **No four-colour black text:** Please do not use four-colour black in text. It could result in a colour halo around the lettering due to registration issues on press. Please use single-colour black text.
- **No four-colour black in graphics:** Please do not use 100% of all four colours to make up black in graphics. The build-up of ink affects the quality, as it is susceptible to marking. We suggest you use the following colour values in graphics to produce a very similar colour to black: 40% Cyan, 40% Magenta, 0% Yellow, 100% Black.

Advertorials

Please supply:

- Suggested short headline (we may need to adapt it to fit the space available)
- Your text (we suggest around 400 words (600 max) for a single-page advertorial and around 800 words (1,200 words max) for a DPS advertorial. You could split the text into sections if you wish, so we could use one or more of them as box copy.
- Your organisation's contact details at the end of the text
- High-resolution logo at 300 dpi
- High-resolution images at 300 dpi (we suggest one or two for a single-page advertorial, and two or three for a DPS advertorial)

We will design your advertorial using editorial fonts and create a draft for your approval.

What's New

Please supply a short headline, around 80 words and a high-resolution image (300dpi, usually 500KB or bigger). Please include your web address at the end.
